ISCC GLOBAL SUSTAINABILITY CONFERENCE 2027

ISCC
International Sustainability & Carbon Certification

25
February
2027

Hybrid Conference – Brussels, Belgium and Live Online
Résidence Palace, Rue de la Loi 155

09:00–17:00
Presentations: 10:00–16:30
(Central European Time | UTC +1)

AGENDA

- **Regulatory & Market Developments:** Key updates across ISCC certification schemes, regulations and evolving compliance frameworks shaping global sustainable supply chains
- **SAF & AMF Policy Developments:** Key regulatory developments across aviation and maritime sectors, from European initiatives to emerging frameworks in the global markets, including updates on the IMO Net-Zero Framework
- **Circular Economy & Bioeconomy:** Developments in policy, certification and market frameworks for circular value chains, bio-based materials, alternative feedstocks
- **High-Level Speaker Sessions & Industry Perspectives:** Hear from senior representatives across policy, industry, certification and academia on the opportunities and challenges shaping sustainable supply chains, circular economy initiatives, SAF and alternative marine fuels
- **Global Policy Updates:** Developments in plastics regulation, recycled and bio-based materials, product and material claims, and evolving compliance requirements across key international markets
- **And many more insights on policy, markets and certification practice from across the global ISCC stakeholder community**
